	Wedge Black		100	18	40x60x40	13,50
	Circle Wedge Orange		100	18	40x60x40	13,50
	Circle Wedge Black		100	18	40x60x40	13,50
	Clamping Plier		1	50	40x60x40	13,50

HOW TO USE

1.SET THE PLIERS

Set the pliers to the scale according to the ceramics thickness.

2.PLACE THE SPACERS

Apply the adhesive and then lay the first tile at the level. Install the spacers at the ends of the tile.

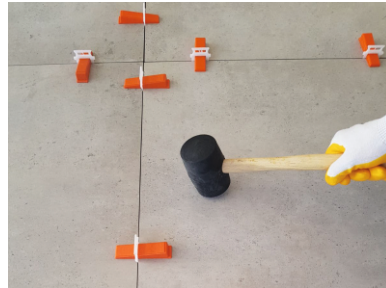

3.PLACE THE WEDGES

When installing the tiles, place the wedges in the spacers manually.

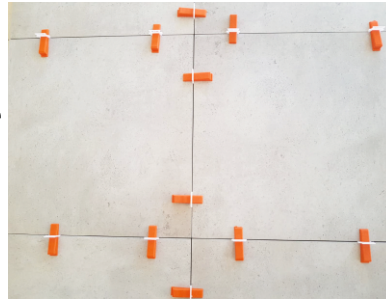

4.TIGHTEN

Tighten till the tiles keep against the bottom of the wedge.

5.HIT SOFTLY

When the tile is levelled, hit softly the tile to adjust.

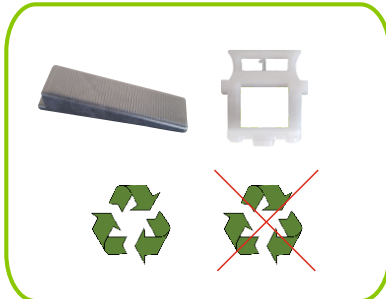

6.WAIT TO DRY

Wait to dry for a while.

7.REMOVE THE KIT

To remove the wedges, kick the side of the levelling spacer by foot or by mallet.

8.KEEP THE WEDGES

Keep the wedges for future use.

B&C Skandinavia A/S

WHY TO USE ?

- * Prevents uneven Tiles
- * Aligns tiles up to 18 mm
- * Ensures even 1 mm grout lines
 - * Easy to Use
- * For Floor & Wall Tiles
 - * Less time at job
 - * More Profit
- * More jobs in one day
